## You be the judge

By the time you get to this segment of the Best Practices Awards special section hopefully you've at least skimmed all of the entries and read through, and benefitted from, a couple that were of particular interest. If you have been associated with the GT-based sector of the industry for a few years, your reac-

tion to several entries might be the following: "We did that a couple of years ago." You might also add: "And we did it better." And if that's true, you probably have continued to innovate and have ideas that your colleagues would find valuable. Please consider participating in the 2010 Best Practices

Awards program (instructions at [www.psimedia.info/bestpractices.htm](http://www.psimedia.info/bestpractices.htm)).

To better gauge how your entries might be rated, consider evaluating the 2009 entries and see how the results compare with those of the judges. The score sheet below is helpful in this regard.
