

TIRED OF PARTS-LIFE PROMISES THAT AREN'T FULFILLED?

GO WITH **PROVEN** PARTS YOU CAN COUNT ON.

PSM 24K 501F Class Transitions

psm.com

The **Proven** Alternative

PSM's 501F fleet leaders:

- Over 20,000 actual operating hours — and counting.
- Over 500 actual starts.

Across the Board Reliability:

- Eighteen sets in-service.
- Five with more than 16,000 actual hours without any distress.
- Six others have passed the 8,000 hour mark.
- Five sets each with more than 300 starts.

All still running strong!

- Total fleet run-time approaching 200,000 actual hours.
- NOx and CO emissions as good as or better than OEM.
- PSM's Improved TP cooling has been shown to slow basket deterioration.
- Suitable for gas or dual-fuel units with DF42 or DLN combustors.

Why wait? Contact PSM today for prices and delivery.

Pair PSM TP's with our improved First Stage Vanes and get even better performance from your machine at lower cost.

www.turbocare.com
